**2010 Cloudburst Cloudburst Chardonnay**

The 2010 Cloudburst Chardonnay opens with lovely wild yeast, toasty and mealy aromas swirling over a core of apricots, green mango, cashews and preserved ginger. Showing just the slightest suggestion of evolution, the medium to full-bodied palate gives incredible layers of ripe, tropical flavors that are nicely complimented by a judicious use of oak and a savory yeastiness. The satin-textured stone fruit and nut elements linger long into the finish. Not cheap but certainly a treat for Chardonnay lovers! Drink it now to 2017+.

**2010 Cloudburst Cloudburst Cabernet Sauvignon**

Only, 1400 bottles of the 2011 were made. A blend of 93% Cabernet Sauvignon and 7% Malbec, the very deep garnet-purple colored 2010 Cloudburst Cabernet Sauvignon shows off an alluring nose of crushed black currants and blackberries with underlying violet, cedar, marmite toast, chocolate and Mediterranean herb hints. Medium-bodied with taut, muscular and minty blackberry flavors, it is supported by firm, finely-grained tannins and lively acid before finishing harmoniously with persistent herbal-laced notes. Very promising start for this new property in Wilyabrup! Drink it now to 2022+. Only 1900 bottles of the 2010 Cabernet Sauvignon were made.

**2011 Cloudburst Cloudburst Chardonnay**

The 2011 Cloudburst Chardonnay reveals youthfully subdued honey-nut characters over a core of apple tart, peach cobbler and allspice with touches of crushed stones and yeast extract. The medium to full-bodied palate is tightly knit but packs in fruit that is interlaced with nut, toasty oak and mineral characters, is enlivened with refreshing acidity and concludes with great length on the finish. It will benefit from another year in bottle and drink from 2014 to 2019+.
